

Assistive Hearing Tech: Tips, Apps and More

We are pleased to offer a session with Richard Einhorn on tips and techniques for using assistive technology to enjoy for everyday use as a person with a hearing loss, including ways to use your smartphone to hear better, how to better hear webinars, use captions on apps like Skype and Zoom, and how to better enjoy music.

Mr. Einhorn is a composer, music producer/engineer, and a hearing technology consultant. He is a *summa cum laude* graduate in music of Columbia University. Based in New York, his music is performed all over the world in major venues such as Disney Hall in Los Angeles and the Sydney Opera House in Australia. Richard has also produced and engineered hundreds of recording sessions and over 30 albums of classical music. His production of Yo Yo Ma's Bach Cello Suites was awarded a Grammy for Best Instrumental Producing. After experiencing sudden sensorineural hearing loss in June 2010, Richard began fashioning unique solutions using professional and consumer technology to help him and others with hearing loss hear better. He continues to compose and advise on hearing loops and improved hearing technology. He is a former president of Hearing Loss Association of America.
